

NOPASIT JANTARAWEEERAGUL

Statement

Highly organized, energetic and confident in my decision making. Have the ability to communicate and work with others without a language barrier. Have the ability to deal with the problem as quickly as possible. As I am still studying for my computer engineering degree, I'm still full of passion to learn new things, high potential to develop and trying to improve all the time. Studying and working need a lot of time management skills which I'm able to balance it well. Working alongside professionals could help me improve my skills faster and they could show me how to work professionally. I hope I could have an opportunity to develop myself.

Contact

Address : 61/162 Village No.3 ,
Royal Park Ville Village,
Suwinthawong Road ,
Lam Phakchi sub-district ,
